Marshgate Sidings Permit number EPR/BP3698EQ

Introductory note

This introductory note does not form a part of the permit

The following notice, which is issued pursuant to regulation 20 and Part 1 of Schedule 5 of the Environmental Permitting (England and Wales) Regulations 2010 S.I.2010 No. 675 (the Regulations), gives notice of the variation of an environmental permit to operate a regulated facility.

This variation is to lift the restriction on the source of waste accepted at the site from that stipulated in the original permit. It also increases the tonnages that the site can store, its annual throughput as well increasing the types of waste the site can accept. It confirms that the site is now operated by DB Schenker Rail (UK) Limited which has the same registration number as the previous company and therefore does not require the permit to be transferred.

Schedule 1 of this notice lists any deleted conditions, Schedule 2 lists any amended conditions, Schedule 3 lists any conditions that have been added and Schedule 4 shows any changes to the plan.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
