

# Notice of transfer of whole with introductory note

Environmental Permitting (England & Wales) Regulations 2007

---

Gerrards Cross Landfill

Veolia ES Landfill Ltd  
Oxford Road  
Gerrards Cross  
Buckinghamshire  
SL9 8TG

Transfer notice number

EPR/XP3636KW/T001

Permit number

EPR / XP3636KW

# Gerrards Cross Landfill

## Permit number EPR/XP3636KW

### Introductory note

#### ***This introductory note does not form a part of the permit***

The following notice is issued in accordance with regulation 20 and Part 1 of Schedule 5 of The Environmental Permitting (England and Wales) Regulations 2007 (S.I.2007 No. 3538 ) (the Regulations) to transfer a permit issued under the Regulations to operate the regulated facility. Schedule 1 of the notice sets out the conditions to be deleted from the permit, Schedule 2 contains amendments to permit conditions and Schedule 3 contains additional permit conditions.

The effect of this notice is to transfer the Permit number BU3086ID from Veolia ES(UK) Ltd to the control of Veolia ES Landfill Ltd.

There are no changes to the installation as a result of this Transfer. The permit number BU3086ID will be superseded by the new permit number XP3636KW

A non technical description of the installation is given in the Application, but the main features of the installation are as follows:

Gerrards cross landfill installation comprises two landfills previously known as Hyde Farm and Wapsey's Wood Landfills, located between the M40 and A40, east of Beaconsfield and west of Gerrards Cross at NGR SU976888.

Hyde Farm Landfill is a fully engineered landfill accepting non-hazardous commercial, industrial and household waste. However it also accepted hazardous waste until 16th July 2004. The adjacent, Wapsey's Wood Landfill, is comprised of nine fully engineered cells, and some older non engineered cells operated on the principle of dilute and disperse. Due to planning restrictions placed upon the site, it will cease land filling in 2012 and will be restored to a gently sloping surface tailored to be sympathetic with the local topography

Leachate and gas are managed on the site, with leachate recirculated through the landfill in parts of the site and also tankered off site to a treatment works for disposal. Landfill gas is burnt in a flare or utilised to generate electricity in engines operated by Infinis Ltd.

In the North West corner of the Hyde Farm part of the site a household waste recycling centre has been developed by Buckinghamshire County Council and is operated by ASM Metal Recycling Ltd under permit number EAWML 80718 which was issued on 21/07/2006. This activity does not form part of the installation although it lies within the installation boundary.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

**Status Log of the permit**
